

## Duct Connection Kits

For ease of installation IP Systems offers a range of duct connection kits. Please provide us with your detailed specifications such as number of exhaust ports and diameter for a detailed quotation.

### Example:

The flexible hose is a single ply vinyl coated polyester bonded to a vinyl covered spring steel helix. Temperature range form 0 – 250F.

The galvanized duct, elbows and fittings feature double lipped, double sealing gaskets. It is tested for pressures from – 20" WG to +12" WG.
